Letter Camp No. C, dated 10th April 1897, from the Deputy Commissioner, Tumkur, soliciting instructions as to whether an officer served either direct or through his official superior with a summons requiring his attendance before a Civil or a Criminal Court as a witness, is not required to obtain the sanction of his official superior before leaving his post, and as to whether an officer attending the Civil Court in obedience to a summons, in a case in which he is himself a party, can be regarded as absent on duty.

READ:—

Proceedings of the Chief Court of Mysore, No. 4778—2925, dated 31st March 1896.

Letter No. 1736, dated 21st March 1896, from the Deputy Commissioner of Mysore, stating that summonses are issued by Civil Courts direct to subordinates of the Revenue Department, and that it is desirable that such summonses should be sent through their official superiors. If the instructions contained in this Court's Circular Letter No. 62, dated 24th July 1884 (copy annexed) are attended to, all inconvenience will be obviated. If the Deputy Commissioner will bring to notice particular cases in which the instructions contained in the above Circular Letter are not attended to, the Court concerned will be called on for explanation.

Circular Letter No. 62, dated 24th July 1884, from the Registrar, Chief Court, to the Judges of all Civil Courts.

I am directed to state that whenever it is found necessary to issue a summons to any person in the service of Government, or of any Railway Company, the Court issuing the summons shall, having regard to the provisions of Sections 69 and 167, Civil Procedure Code, fix such a reasonable time for compliance with the summons as would admit of the persons summoned communicating with his official superiors with a view to arrangements being made for the performance of his duties during his absence.

No. 13897-905—Mis. 2754, DATED, BANGALORE, 30TH JUNE 1897.

ORDER THEREON.—As regards the first question raised by the Deputy Commissioner, Government observe that the Chief Court has directed the grant of reasonable time, and that consequently, except in urgent cases, the officer served with a summons should not leave his post without obtaining due permission from his official superior, on whom rests the responsibility of making arrangements for the performance of duties during the absence of the former. The mere fact of the summons having been served through the official superior cannot be taken to be tantamount to permission asked for and obtained by the officer concerned to enable him to leave his post.

2. As regards the second question raised, Government are of opinion that the case of a public servant having to appear before a Civil or a Criminal Court as a witness is different from that in which he is summoned as a party in his private capacity. In the latter case, he cannot be regarded as absent on duty.

Proceedings of the Government of Mysore,

READ :—

Letter from the President of the District Fund Boards, Mysore district, No. 1751, dated 25th May 1897.

I have the honor to report that Mr. Amble Annaiya Pandit, a member of the District Fund Board, proposed, at the meeting held on the 14th instant, that it would be better to train five students in native medical treatment for three years. This proposition was passed by the Board. An extract from the proceedings is herewith submitted. I beg that orders of Government may kindly be obtained on the subject.

Extract from the Proceedings of the District Fund Board of the Mysore Circle at a meeting held on the 14th May 1897.

III. Proposed by Mr. Amble Annaiya Pandit and seconded by Mr. Rangaiengar that five young men, who have passed the Lower Secondary Examination in English, be trained for practising native medical treatment in the Indigenous Hospital at Mysore, that scholarships tenable for three years at Rs. 6 for the 1st year, Rs. 7 for 2nd year and Rs. 8 for the 3rd year, be paid to the students.

Resolved that the proposal be recommended for the favorable consideration of Government as the proposed scheme will supply a number of native pandits available for services in places far removed from dispensaries, besides encouraging the study of the time-honored Ayurvedic treatment which once flourished in India.

No. 13699-707—L. F. 344-96, DATED, BANGALORE, 25TH JUNE 1897.

ORDER THEREON.—The proposed grant of five scholarships, tenable for three years at rates noted in the margin, to five young men who have passed the Lower Secondary Examination in English, with a view to train them in native medical treatment in the Indigenous Hospital at Mysore, is sanctioned. The cost will be debited to the District Fund of the Mysore Local Fund circle. The provision in the sanctioned budget for 1897-98, from which the charge can be met, should be pointed out.

Letter from the President of the District Fund Board, Chitaldrug, No. 928—864, dated 13th May 1897, requesting instructions as to which of the three Assistant Commissioners in the district should be regarded as a member of the Board.

Correspondence ending with letter from the President of the District Fund Board, Bangalore, No. 1183, dated 14th May 1897, suggesting that the 2nd General Assistant Commissioner and Deputy Amildars may be made *ex-officio* members.

No. 13527-34—L. F. 275-92, DATED, BANGALORE, 19TH JUNE 1897.

ORDER THEREON.—Under the Rules of 4th July 1874, relating to the establishment of District Fund Committees, all "Assistant Commissioners in charge of Sub-Divisions," besides the Assistant Commissioner at district head-quarters, are *ex-officio* members. Government are of opinion that this expression includes, not only Officers in charge of sub-divisions created for the purposes of the Criminal Procedure Code, but also all Assistant Commissioners placed in charge of one or more taluks or sub-divisions of a district. All such Assistant Commissioners should accordingly be regarded as *ex-officio* members of District Fund Boards.

2. With regard to Deputy Amildars, it is observed that, under the existing rules, they cannot be regarded as *ex-officio* members, but that the point has been noted for consideration along with the Draft Local Boards Regulation under preparation.

READ THE FOLLOWING PAPERS :—

I. The Proceedings of Government No. 11709-17—L. F. 379-92, dated, Bangalore, 16th April 1896.

The question of employing Mestris or Work Overseers or Inspectors for the supervision of public works carried out by Revenue Officers from District Funds, has been under the consideration of Government for some time past. Before passing final orders, however, Government consider it necessary to obtain definite proposals from the Deputy Commissioners of all the districts in the province. It seems desirable that the establishment to be entertained should also be entrusted with the supervision of public works in minor municipalities. The Deputy Commissioners should ascertain and report the normal expenditure incurred annually on public works from both Funds, and to propose establishments, the cost of which should not be more than ten per cent of the cost of works, such cost being debited *pro rata* to both the Funds. The number and qualifications of men to be employed, their pay, allocation and such other particulars, as may be necessary, should be reported as early as practicable.

III. Government Proceedings No. 6931-9—379-92, dated 15th December 1896.

As the District Funds and Local Funds General are allotted districtwar, while each municipality has its own income, the Comptroller is requested to state early whether the salaries of the establishments proposed for each Local Fund circle may, if sanctioned, be paid monthly and charged to the "Suspense Account" and at the end of each year, the total amount distributed among the various municipalities and District Funds as well as Local Funds General in proportion to the expenditure incurred from the respective Funds on works supervised by such establishments during the year.

2. The Deputy Commissioners of the several districts are also requested to state as early as practicable what establishments, if any, are now employed to supervise works in municipal towns and whether, in the event of the proposed establishments for the supervision of Municipal and Local Fund works being sanctioned, they could see their way to recommend the abolition of the existing agency.

IV. The following replies received from the Comptroller and from the Deputy Commissioners of districts.

(*a*) Letter No. 1253, dated 19th December 1896, from the Comptroller.

With reference to Government Proceedings No. 6931-9—L. F. 379-92, dated 15th December 1896, enquiring whether, in the event of the establishment proposed for each Local Fund circle being sanctioned, their salaries may be debited in the first instance to "Suspense" and at the close of the year apportioned to the respective Funds in proportion to the expenditure incurred therefrom and supervised by such establishment, I have the honor to state that the cost of the establishment will, in the first instance, be debited to District Funds and to other month and at the

close of the year the distribution will be made by transfer as is done in the case of the office establishment employed in the Dewan's and Comptroller's offices on account of Municipal Funds.

reporting that there are at present no separate establishments to supervise works undertaken in minor municipalities in their districts except in Seringapatam, Chikmagalur, Birur, Chitaldrug and Davangere, and that these may be continued as heretofore.

No. 13938-46—L. F. 320-96, DATED, BANGALORE, 30TH JUNE 1897.

ORDER THEREON.—The pressing need for an agency for the supervision of works carried out by the Revenue Department, has been made out to the satisfaction of Government. The proposals submitted by the several Deputy Commissioners, however, vary considerably from each other; and the most satisfactory arrangement would appear to be to give each taluk or sub-taluk a Work Inspector with a peon on Rs. 6. The Work Inspectors might be divided into four classes on Rs. 15, 20, 25 and 30, respectively with a horse allowance of Rs. 7, the number of men in each class being fixed with reference to the requirements of each district. Under this arrangement, if the cost of the establishment should, at any time, be likely to exceed 10 per cent of the cost of works executed, a reduction could at once be effected by putting more taluks or sub-taluks than one in charge of a single Work Inspector. Deputy Commissioners are requested to submit further proposals for the final orders of Government in the light of these remarks.

(2). But, pending the introduction of a uniform scale of establishments and salaries as above, Government are pleased to sanction tentatively for one year, that is, with effect from 1st July 1897, the proposals actually made, which are as shown below:—

3. The establishments thus temporarily sanctioned will be entrusted with the execution of all works undertaken from the District Funds and Local Funds General, and also, as far as possible, of works carried out from Municipal Funds in minor municipalities. Where the latter arrangement is found impracticable, owing to the works to be supervised being extensive and scattered, separate establishments may be entertained temporarily in municipalities within the limit specified in para 5. The establishments now maintained in some of the Local Fund circles should be discontinued or absorbed; but the Overseers already existing in the municipalities of Seringapatam, Chikmagalur, Birur, Chitaldrug and Davangere will, pending further orders, be specially continued under the designation of Work Inspectors.

4. The salaries will be first paid and afterwards adjusted in the manner suggested by the Comptroller in his communication read above.

5. The cost of establishments should for the present be kept well within 10 per cent of the total cost of works executed; and should it be found at any time during the year that this limit is likely to be materially exceeded, the necessary reduction of establishment should at once be made and a report of the same forwarded to Government.

READ :—

Letter No. 2155, dated 1st June 1897, from the Comptroller in Mysore.

I have the honor to report that the pay of the marginally noted officials of the Seringapatam Municipality in the French Rocks Sub-Division for March, April and May 1896, amounting to Rs. 18-7-6 was first drawn in the months noted against each and subsequently a second time on supplemental bills in the month of July 1896.

Acting Octroi peon Narasimmaiya for 24 days in March 1896 at Rs. 43	1	7	First drawn in April 1896		
Octroi Manegar Venkata Rao for 5 days in March 1896 at Rs. 6	0	15	6	,,	April 1896
Octroi Manegar Venkatanarasappa for 22 days in April 1896 at Rs. 6	4	6	5	,,	May 1896
Municipal Vaccinator for May 1896	10	0	0	,,	June 1896

2. Objection statement, however, issued from my office on the 26th November 1896, disallowing the second payment and ordering its recovery from the next establishment pay bills. The statement which should have been returned to this office within a week after its receipt was forwarded by the Sub-Division Officer on the 2nd February 1897, that is, after a delay of above two months, with his remarks that the order "will be attended to." But none of the bills for December 1896, January, February and March 1897 show that the recovery was effected.

3. I beg to invite the attention of the Government to Article 16, Chapter I, of the Civil Account Code, and to request that the Presidents of Municipal and District Fund Boards may be impressed with the stringency of the rules and warned to act up to them promptly and punctually.

No. 13417-25—L. F. 343-96, DATED, BANGALORE, 17TH JUNE 1897.

ORDER THEREON.—Copy of the foregoing will be forwarded to the President of the Municipalities in the Mysore district, with a request that he will have the sum recovered at once, and also obtain and submit the explanation of the Sub-Division Officer for the delay and the want of attention to the Comptroller's requisitions now brought to notice.

2. In drawing the attention of the Presidents of Municipal and District Fund Boards to the stringent provisions of Article 16, Chapter I, of the Civil Account Code, Government direct that the same be invariably acted up to with promptness and punctuality.

RECEIPTS.

2. The increased receipts anticipated under the first four heads are accounted for thus:—Under "I. Octroi" by the estimate being based on the actuals of the first six months and the probable increase due to stricter supervision; under "III. License receipts," from surcharge on excess sales of arrack and a larger issue of hackney carriage licenses; and under "II. House tax" and "VII, Mohatarfa" from the collection of arrears.

3. X. *Miscellaneous.*—The increase under this head is chiefly due to the inclusion in the estimate of the contribution payable from the District Funds towards the cost of the Arlepet Dispensary for two years. In addition, a sum of Rs. 73 payable from Local Funds General will now be entered under "(*m*) Contribution" to meet $\frac{2}{3}$rds of the increase given to the Senior Hospital Assistant in charge of the Chattram Hospital (*vide* para 15 *infra*).

4. In accordance with the orders contained in Proceedings No. 7596-7—L. F. 113-96, dated 5th January 1897, the payment of Rs. 300 made by the slaughter house contractor will be transferred from the sub-head "Other items" to a separate head "XII. Payments for services rendered by municipalities."

5. *Advances.*—In accordance with the representations of the Municipal Board and in consideration of the special nature of the conservancy arrangements needed, the Government are pleased to direct that the advance of Rs. 10,000 made in para 1 of Proceedings, Camp No. 177-9, dated 20th February 1897, as well as the advance of Rs. 500 sanctioned in Proceedings No. 8840-50—Mis. 1697, dated 4th February 1897, shall be treated as a special grant from Provincial Funds to enable the municipality to carry out the necessary remedial measures against the plague.

6. In lieu of the sum (Rs. 15,070) entered in the budget, the actual balance in favor of the municipality on 1st July 1896 according to the Comptroller's accounts, *viz.*, Rs. 8,106, will be entered as the opening balance for the current year.

EXPENDITURE.

7. *II. Head Office.*—The provision under this head includes the salaries of the three orderlies and the Vernacular Record-keeper already sanctioned, as well as extra advertisement charges and the privilege leave allowance for three months proposed to be paid to the Head Munshi preparatory to his retirement. These items will be allowed; but the allowance last mentioned should not be disbursed till the issue of final orders on the President's letter No. 247, dated 6th April 1897.

8. *III. Collection.*—In addition to the provision made for the marginally noted items, already sanctioned by Government, a sum of Rs. 131 has been entered to meet charges incurred for temporary collection establishments. The provision will be retained; but before utilizing the same, the details of these establishments and the necessity for employing them should be explained.

1. Pay and allowance of the Octroi Manager.
2. Pay of the additional shanbhog.

9. *IV. Conservancy.*—The estimate under this head, which provides for the marginally noted charges in addition to the increases to the staff and pay of establishments, sanctioned in Proceedings Nos. 3003-4—L. F. 153-94 and 9725-6—L. F. 126-95, respectively, dated 31st August 1896 and 25th February 1897, will now be raised by Rs. 48 to meet the monthly allowance of Rs. 4 sanctioned to the cartman and sweeper of the slaughter house in Proceedings No. 7596-7—113-96, dated 5th January 1897. But at the same time the original provision of Rs. 132 on account of remuneration to village patels will be struck out (*vide* Proceedings No. 9897-8—109-96, dated 4th March 1897).

	Rs.
1. 13 hand carts at Rs. 30 each	390

3. Baskets, brooms, &c. ..	75
4. Repairing conservancy carts	45
5. 50 dust-bins at Rs. 5½ each	275
	787

10. *VII. Lighting.*—The increased provision said to be on account of more lights and extra rates, will stand, subject to the submission of the details of increase.

11. *VIII. Public Works* (*a*) *Supervision.*—For the last quarter of the current year, the marginally noted provisions involving a net decrease of Rs. 300 are made in the present budget, which does not, however, include the increase of Rs. 5 per mensem, sanctioned to the Public Works Accountant in Proceedings No. 11382-3—L. F. 309-96, dated 19th April 1897. The necessary provision will now be made, the budget allotment under this head being raised by Rs. 10.

14. *Item* 2.—This item, stated to be on account of the purchase of medicines seems unnecessary as Europe medicines, were, in Proceedings No. 10046-8—L. F. 114-96, dated 9th March 1897, ordered to be supplied free of cost from the Medical Stores. In place of this, a lump sum of Rs. 36 will be provided to meet the rent of a suitable building for the institution (*vide* Proceedings No. 11413-6—Mis. 18-96, dated 19th April 1897), but the actual rent payable should be reported.

15. *Item* 3, which is the amount of the increase given to the Senior Hospital Assistant, is passed, the two-thirds contribution payable from Local Funds General under Proceedings No. 3177-89—L. F. 91-92, dated 29th August 1892, having been provided on the side of receipt in para 3 above.

16. *Item* 5.—The proper amount to be entered on account of the pay of the midwife, sanctioned in Proceedings No. 7649-51—L. F. 43-92, dated 6th January 1897, with effect from 17th November 1896, is Rs. 130 and not Rs. 120 as given in the budget. The former figure will accordingly be substituted.

17. *Item* 8.—As the municipality was relieved of the cost of the Eye Infirmary in Proceedings No. 11413-6—Mis 18-96, dated 19th April 1897, with effect from 1st April 1897, the provision made in the budget will be reduced from Rs. 122 to Rs. 86.

18. *X. Education.*—The provision made under this head is on account of the additional teaching staff and grant-in-aid already sanctioned by Government, and is passed.

19. *Miscellaneous—Gardens.*—Including the increase of Rs. 7 per mensem sanctioned in Proceedings No. 6510-11—L. F. 112-96, dated 5th December 1896, to the Municipal Garden establishments, the total provision under this head will be Rs. 1,083 as marginally detailed. With reference to this, it should be stated whether the provision of Rs. 147 for extra gardeners may not be struck out, an extra hand being now permanently employed.

OFFICE OF THE DEWAN OF MYSORE,
Bangalore, 28th June 1897.

No. 13807-15—L.F. 184-96.

OFFICIAL MEMORANDUM.

It having come to the notice of Government that there exists in certain municipalities the irregular practice of stamping piece-goods as soon as they are imported into municipal limits and levying subsequently the octroi duty payable thereon, Government direct that such practice should, wherever it exists, be discontinued at once and payment of duty demanded and received before the goods are stamped. The money should also be credited as soon as it is received.

By Order,

C. SREENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Presidents of Municipalities.
The Comptroller to the Government of Mysore.

I.—Irrigation Wells.

ORDER THEREON.—The Irrigation Wells Rules are not in force in the Mysore district. In the Hassan and Kadur districts, no loan orders have as yet been issued. This review therefore relates to the loan orders issued in the remaining five districts of the province.

2. In the Chitaldrug district and in some taluks of the Bangalore and Kolar districts, the opening balance of the uncollected demand of the previous quarter shown in the statements under review does not correspond with the figures entered in the register kept in this office, as per details furnished by the Deputy Commissioners from time to time. The variations are exhibited in the statement

given below and the Deputy Commissioners of Bangalore, Kolar and Chitaldrug are requested to explain them without delay :—

3. Under para 19 of the Special Rules published under Notification No. 183, dated 21st July 1891, the instalments due for irrigation wells become payable yearly with the last khist and the demand for such loans arises therefore in the last quarter of every revenue year. The balance outstanding on 30th June must accordingly be brought forward and shown in subsequent statements under the head "Demand of previous years." The figures which ought to be entered in column 3 ("Uncollected balance up to the end of last quarter of *previous* years") of the statement of the Kolar district for the quarter under review are wrongly entered under column 4 ("Uncollected balance up to the end of last quarter of *current* year.") These discrepancies have been rectified in Statement No. I, appended to this review; and it is requested that the corrections made therein may be noted for future guidance.

4. It is observed from the aforesaid statement that, out of the total balance of Rs. 1,156-14-6 outstanding on 1st July 1896, only Rs. 594-12-8 were recovered, leaving a sum of Rs. 562-1-10 still uncollected and that Rs. 0-4-6 have been recovered as interest on *overdue* instalments in the Bangalore district only, while no such interest has been shown in the returns received from the other districts. Every endeavour should be made to collect at an early date all outstanding arrears with interest under the rules and to insert, in the future returns under the column of remarks against each taluk, the amount of interest recovered on account of *overdue* instalments.

5. The figure entered against the Channapatna taluk should be removed and entered against the Closepet sub-taluk, as no loan has apparently been sanctioned in the Channapatna taluk proper, while four applications have been sanctioned in the Closepet sub-taluk.

II.—Land Improvement Loans.

6. It is observed from the appended Statement No. II, that out of the demand of Rs. 54-2-2 outstanding on 1st July 1896, all but Rs. 6-14-1 has been recovered up to 30th September 1896.

7. In Government Proceedings No. 2680-81—R. F. 37-93, dated 7th August 1894, a sum of Rs. 2,000 was sanctioned to Moyasandra Ramaiengar for the restoration of a tank and for other land improvements in the Tiptur taluk of the Tumkur district. The amount is repayable in twelve years and the first instalment of Rs. 225-10-3 was to commence from September 1894. But the item has not been brought under "Demand" and accounted for in the statement received from the Deputy Commissioner, Tumkur district. This omission requires early attention and explanation.

III.—Saguvali Kattes.

8. As already observed in para 3 above, the balance outstanding on 30th June should be shown as "Demand of previous years" in the subsequent statements. In the Mysore and Hassan districts the figures under this head are wrongly shown as "Demand of current year." The discrepancy has, however, been rectified in this office.

9. It will be observed from Statement No. III appended that a large balance of nearly Rs. 831-3-1 for the whole province was outstanding at the close of September 1896, and that a sum of Rs. 7-7-8 was recovered on account of interest on overdue instalments in the Mysore district only.

10. The Government desire that early attention should be paid to the above remarks and correct information furnished in future returns.

Letter No. 2616—645, dated 11th January 1897, and docket No 2657—656, dated 14th January 1897, from the Deputy Commissioner, Kolar district, regarding the cultivation of certain lands submerged by the raising of the waste weir of the Chimangala tank in the Sidlaghatta taluk.

No. 10686-95—R. 3548, DATED, BANGALORE, 5TH JUNE 1897.

ORDER THEREON.—The Chimangala tank in the Sidlaghatta taluk was improved by the Public Works Department and its waste weir raised in 1892-93. Consequently land to the extent of 39 acres and 28 guntas, as shown in the margin, was submerged, and the holders thereof (excepting two) requested permission to retain their lands and cultivate them, as the tank water receded, on the ground that their lands remained under water only for a few days when the tank was full. The other two individuals, holding survey Nos. 6 and 12 of Chimangala village and of survey No. 9 of Attiganahalli, demanded compensation not only for the portions actually submerged but also for the whole of the numbers. The Deputy Commissioner, Mr. Madiah, ordered that those who wished to retain and cultivate the submerged portions of their lands might be permitted to do so, that survey No. 6, being unfit for cultivation owing to pits dug therein, might be taken over to Government and that the portion submerged out of survey No. 12 might be struck off the khate. Subsequently, the Deputy Commissioner consulted the Survey Superintendent, who stated that it was contrary to the provision of the Revenue Rules to permit cultivation of the submerged lands, subject to conflicting rights.

2. Referring to the above, the Deputy Commissioner states that there is no dual or conflicting right in the matter, that the raiyats hold the lands without objection to the standing of tank water thereon and cultivate the same when the water recedes, that some of the lands will be very profitable even as mere grass lands, and there is not much risk of the silt being washed into the tank by their cultivation, and that the Survey Superintendent has not considered the loss on the other side to Government, in the payment of compensation for these lands in addition to the remission of assessment thereon every year.

3. The Chief Engineer, who was also consulted in the matter, is of opinion that Government Proceedings No. 7338-46—R. 2451, dated 14th February 1897, deprecating the practice of allowing private rights of any kind to spring up within the beds of tanks in action, being applicable to all cases, no exception should be allowed, that the "tank bed" of a "raised" tank may be taken as bounded by the water line of the raised kodi and should be treated just like old tank beds, and that above such water-line there will be a strip submerged only when the kodi is spilling and that such strip may be let out for cultivation.

4. Government agree with the Superintendent of Revenue Survey and the Chief Engineer. The Government Order cited above lays down a sound rule. The bed of a tank must be defined in the manner suggested by the Chief Engineer as comprising all the land in the contour within the level line of the raised kodi. Cultivation of such land, except under the conditions specified in para 10 of Rule XX of the Land Revenue Rules, is illegal and ought not to be permitted. In this view, the lands submerged by the Chimangala tank should be duly acquired and treated as kharab forming part of the tank bed, the assessment thereon being written off the accounts.

5. The Deputy Commissioner is requested to submit proposals for the payment of compensation for the occupied lands including personal inams, and for the grant of fresh lands to the holders of service inams.

The following letter No. 6937 from the Comptroller to the Government of Mysore.

I have the honor to solicit instructions as to the rate of interest leviable on an advance for an irrigation well, when default is made in its construction, or on an instalment of a loan granted for such a well, when such instalment has been in arrear. Section 6 and para 2 of Section 16 (as amended by Government Proceedings No. 25071-79—R. 3736, dated 28th June 1895) of the rules for construction of irrigation wells, published in the Notification No. 183, dated 21st July 1891, simply say that such advance or instalment shall be recoverable "with interest." But it is not clear whether the rate leviable is 3 per cent (special favorable rate) as laid down in Section 4 of the said rules, or at the rate of one pie per rupee per mensem as in the case of arrears of kandayam, as interpreted by Mr. B. G. Krishnaiengar in his Yadi No. 6, dated 6th July 1894, and the Deputy Commissioner, Chitaldrug district, quoted in Government Proceedings No. 10607-16—R. 1597, dated 20th December 1894.

I solicit the favor of an early reply.

No. 10778-87—R. 3563, DATED, BANGALORE, 6TH JUNE 1897.

ORDER THEREON.—Government are of opinion that the rate of one pie per rupee per mensem as in the case of arrears of kandayam cannot with propriety be levied on the advances made for irrigation wells. They are, therefore, pleased to direct that interest at only three per cent per annum be levied on advances for irrigation wells, (1) when default is made in their construction or (2) when an instalment of a loan granted for such a well has been in arrear.

A Notification to the above effect will accordingly be published in the *Gazette* for general information.

Notification No. 10788—R. 3569 dated, Bangalore, 6th June 1897.

The Government of Mysore are pleased to direct that in Sections 6 and 16 of the Special Rules under the Land Improvement Loans Regulation, contained in Notification No. 183, dated 21st July 1891 and amended by Proceedings No. 10731-9—R. F. 109-92, dated 20th December 1894, the words "at 3 per cent per annum" be added after the words "with interest" as follows:—

6. "A special annual charge shall be made upon the land assigned as the "ayakat (irrigable area) of the well for re-payment of the debt and interest "thereon. It shall not exceed Rs. 5 per acre of the irrigable area, and when "in arrear shall be recoverable with interest *at 3 per cent per annum* as an "arrear of Land Revenue and also as provided for in these rules".

16. "On receipt of an application, the Amildar shall inspect the land and "make summary enquiry in the village as to the correctness of the entries in "the application, and shall report whether the land will be commanded by the "well; and what will, judging from that of like land in the neighbourhood, be "the market value of the land if the well is successful. The report shall be "transmitted to the Divisional or other Officer appointed for the purpose, who "shall examine whether the loan can be made under the rules, and, if no ob-"jection is found, shall accept the application and order the Amildar to advance "one-third or half the amount of the loan applied for, after taking an agree-"ment from the applicant to the effect that the money received shall be applied "to the purpose intended, and that a substantial and properly constructed well "in full working order shall be completed within the time allowable for the "execution of the work. Such time shall ordinarily be six months, but in "case of loans exceeding Rs. 300, the Officer granting the loan may extend it "to one year. When the first instalment of the loan advanced is expended, "the applicant may apply to have the work measured and estimated, and, if "work is found to have been done to the value of the first instalment, a second

'not exceeding one-third or half the loan applied for, may be advanced; when 'work for this amount also has been executed, the remainder of the loan, if 'any, may be advanced. If, however, it becomes impossible to complete the 'well within the sanctioned loan, an application for an additional loan may 'be made after the amount originally applied for and obtained has been fully 'expended. On receipt of such application, the work done should be measured 'and the cost estimated. After satisfying himself that the further loan applied 'for, or a portion of it, is necessary for the proper completion of the well, the 'Divisional or other Officer appointed for the purpose may sanction the pay-'ment of such loan in such instalments as he may deem proper, provided, how-'ever, that the conditions of Rules 2, 5, and 6 are not infringed. No interest 'will be charged on the instalments thus advanced. If default is made in the 'construction of the well, the amount of the preliminary advances authorized 'by this rule will be recoverable *with interest at 3 per cent per annum* from 'the applicant as arrears of Land Revenue. But when the work is not complet-'ed, having had to be abandoned owing to causes beyond the applicant's 'control, such as no water being found, the expenditure incurred shall be borne 'by Government".

Letter No. 379, dated 15th February 1897, from the Director of Meteorology in Mysore, submitting eight copies of the Report on Rainfall Registration in Mysore for 1895.

No. 10809-17—R. 3578, DATED, BANGALORE, 9TH JUNE 1897.

ORDER THEREON.—The report submitted by the Director of Meteorology contains useful information as in previous years and will be published and copies distributed as usual.

2. The average rainfall for the whole province during the year under review was better than the average of the preceding 26 years by 1·54 inches.

3. The Director brings to notice that the inspection reports of the marginally noted rain gauge stations have not been received in his office during the past four years. The Deputy Commissioners concerned should arrange for the inspection of the said stations at least twice a year, and for the punctual transmission of reports to the Director.

4. Government regret to observe that the statistics of 25 years' rainfall called for by the Director were not furnished promptly and in a complete form by several of the Deputy Commissioners and they trust that with the help now proposed to be given by the Director in supplying printed rain record books to show the daily rainfall for 50 years, the Deputy Commissioners will arrange to have complete information collected and preserved as suggested by the Director.

5. As regards the discrepancies pointed out by the Director between the figures entered in the monthly Rainfall Returns published in the *Gazette*, which are based on the district returns, and those entered in the returns received in the Meteorological office, the attention of the Deputy Commissioners is drawn to para 3 of Government Proceedings No. 8634-42—R. 3358, dated 20th March 1896, and they are requested to enquire into the cause of such inconsistencies and to issue strict orders to the Amildars or other officers concerned, so that such discrepancies may not recur in future.

6. The Director is requested to forward eight copies of the report to this office for transmission to the Residency.

Letter No. 1652, dated the 5th May 1897, from the Deputy Commissioner of the Mysore district, stating, with reference to para 5 of Government Proceedings No. 8778-84—R. 2949, dated 1st April 1897, that the cause of delay in the submission of the review on the itinerary journals of the Amildars, &c., for December 1896, was due to the non-receipt in time of the diaries of the Amildars of the Nanjangud, Nagamangala, T. Narsipur and Gundlupet taluks.

No. 11055-62—R. 3666, DATED, BANGALORE, 18TH JUNE 1897.

ORDER THEREON—Recorded.

2. It would have been well if the Deputy Commissioner had censured the Amildars for their delay. It behoves him to take such action as will ensure the prompt and punctual receipt of returns and statements from his subordinate officers.

To—The Deputy Commissioner, Mysore District.
The Deputy Commissioners of other Districts for information.

No. 11222-30—R. 3719, DATED, BANGALORE, 23RD JUNE 1897.

ORDER.—The Deputy Commissioners of the several districts are requested to forward to the Inspector of Agricultural Banks, a complete list of irrigation wells for which loans have been advanced by Government. The Inspector should see as many of such wells as possible in the course of his tours and send general reports to the Deputy Commissioners concerned, showing the extent to which the advances have been properly utilized, and the manner in which the wells are working. These reports, with the Deputy Commissioners' observations and opinions thereon should be submitted for the information of Government.

Replies received from the Deputy Commissioners of Bangalore, Tumkur, Mysore, Hassan and Kadur districts, to this office Official Memorandum No. 2513-20—R. 913, dated 4th September 1896, as to the existing practice in their districts in regard to the recovery of irrigation cess on lands irrigated by private enterprise tanks and wells.

ALSO :—

Replies received from the Deputy Commissioners of Tumkur, Hassan, Shimoga and Kadur districts, to this office Official Memorandum No. 2505-12—R. 912, dated 4th September 1896, reporting upon the practice obtaining in their districts in regard to the levy of irrigation cess on bagayat lands irrigated by wells.

No. 11251-9—R. 3738, DATED, BANGALORE, 23RD JUNE 1897.

ORDER THEREON.—Having given the matter their best consideration, Government are of opinion that some measure of relief is necessary. They are accordingly pleased to direct that the irrigation cess levied on "Kushki bagayat" lands, both assessed and inam, irrigated entirely by such private wells as are not under tanks and subsidiary to tank irrigation, be remitted in all the taluks where the cess is not merged in the land assessment but is being levied separately.

2. The existing arrangement under which the cess has, in certain cases, been merged in the assessment of the lands, need not be disturbed till the revision of the survey settlement.

The following letter No. 4664—1076, dated 28th May 1897, from the Deputy Commissioner, Kolar district.

Adverting to Government Proceedings No. 11906A—Mis. F. 25-96, dated 30th April 1897 sanctioning revision of District and Taluk establishments, I have the honor to state that hitherto the pay of the Taluk Head Gumasta and Head Munshi being the same, *viz.*, Rs. 20, appointments were made to the two offices indifferently without careful consideration of the relative qualifications of the candidates, and their claims as to seniority. In the same way, hands were occasionally changed from one appointment to the other to suit the convenience of the Amildars.

2. Under the revised scale, however, the pay of the Head Gumasta is Rs. 25—1—30, and that of the Head Munshi only Rs. 20—1—25 and if the present holders were confirmed in their appointments without consideration of their respective claims, I am afraid that there will be room for a great deal of discontent and heart-burning. Similar questions may crop up in the shekdari and other appointments both in the Taluk and Head-quarter establishments, and an authoritative ruling is very desirable on the question, whether in sanctioning the increases under para 5 of the Government Proceedings, it is open to the Deputy Commissioners to make changes among the holders of the appointments according to qualifications and length of approved service.

No. 11303-11—R. 3740, DATED, BANGALORE, 25TH JUNE 1897.

ORDER THEREON.—Government have no objection to changes such as those proposed in the above being made among the officials, having due regard to seniority and qualifications which are the best guides in such matters.

Progress report in respect of loans under the Land Improvement Loans Regulation IV of 1890 in the several districts for the month of February 1897.

No. 11338-46—R. F. 2-96, DATED, BANGALORE, 25TH JUNE 1897.

ORDER THEREON.—The attention of the Deputy Commissioner of Kolar is drawn to Government Proceedings No. 4456-63—R. F. 2-96, dated 18th November 1896, and to the large balance of Rs. 8,405 which still remains unused out of the grant of Rs. 10,000 sanctioned for loans for irrigation wells in his district. This shows that there is scope for a great deal of this useful work being undertaken in his district. The Deputy Commissioner is therefore requested to give his personal attention to this matter.

2. Government observe that though there has been an increase in the number of irrigation wells completed from July 1896 to February 1897, as per margin, no information is forthcoming to show the full money value of the completed works of irrigation.

3. It is desirable that the Inspector of Agricultural Banks, one of whose duties is to inspect and report upon such works, as also works of improvement carried out with the aid of loans granted by Government under the Land Improvement Regulation, should submit a monthly report describing his doings during the month. He will, therefore, take an early opportunity of inspecting all the completed works and submit a special report for the information of Government, showing the amount sanctioned, the amount of work done to each well, and the extent of land brought under irrigation by the aid of such wells.

ORDER THEREON.—Recorded.

2. *Bangalore District.*—It is very unsatisfactory to note that the Amildar of Hoskote did not submit his diary for the month, and that the remaining Amildars except those of Anekal, Devanhalli and Nelamangala, did not camp out at all during the month. The Deputy Commissioner is requested to explain how the Amildars of Dodballapur and Channapatna were able to travel as many as 124 and 137 miles, respectively, without halting out, and why.

3. *Kolar District.*—The reasons given for the short touring of the Amildars of the Kolar, Sidlagatta, Bagepalli and Gorbidnur taluks are insufficient. Amildars and Deputy Amildars are expected to camp out for not less than 10 days in a month.

4. *Hassan and Shimoga Districts.*—The reviews received from the Hassan and Shimoga districts do not show the names of the Amildars. Such omissions should be avoided in future.

Fortnightly statements of irrigation wells, received from the several districts in the province for the month of May 1897.

No. 11443-52—R. 3803, DATED, BANGALORE, 26TH JUNE 1897.

ORDER THEREON.—It is observed that the following sums have been sanctioned, up to the end of April 1897, out of the grant allotted for 1896-97.

Districts.	Amount allotted for 1896-97.	Amount sanctioned.
	Rs.	Rs.
Bangalore	12,500	7,700

Chitaldrug	24,000	16,970
Shimoga	2,500	375
Hassan	3,500	1,300

2. Ninety-one wells have been completed from July 1896 to April 1897 as follows:—

Bangalore	13
Kolar	19
Tumkur	24
Chitaldrug	33
Shimoga	2
	91

3. The following statement shows the total number of wells completed from 1891 up to the end of May 1897 and the area irrigable by those wells:—

Districts.	No. of wells completed.	Dry.		Wet.		Garden.		Total.		Amount sanctioned.

4. Under the rules relating to irrigation wells, the time allowable for the completion of a well is ordinarily six months, but in cases of loans exceeding Rs. 300 the time can be extended to one year. In the following cases, however, the time allowed has far exceeded that limit, advances having been made from 1891 to 30th June 1895, and the wells not having yet been completed.

	Total	124	39,550	0	0

5. The excess in the above cases varies from 2 to 4 years.

6. It is noted with regret that in all the taluks of the Kolar district, except Kolar and Mulbagal, in the Maddagiri taluk and the Koratagere sub-taluk of the Tumkur district, and in the Hiriyur and Jagalur taluks of the Chitaldrug district, little or no progress has been made towards the completion of the wells from the date of the abolition of the Special Duty Office in October 1895. The Deputy Commissioners of these districts have been repeatedly asked to see that the wells, for which advances were made prior to 1895-96, are completed soon and a report submitted.

7. Government expect that Deputy Commissioners will give their personal attention to this important subject and see that the advances are not misapplied, and that the benevolent intention of Government is fully carried out in each and every case by the prompt and satisfactory completion of the wells.

2. The decrease of Rs. 64,024 and Rs. 58,770 under "Current demand" in the Kolar and Kadur districts, respectively, as shown in the margin, is very heavy. The Deputy Commissioner, Kadur district, in reply to a similar observation made in Government Proceedings No. 8628-36—R. 2012, dated 31st March 1896, as regards the decrease of Rs. 38,516, under the head "Land Revenue," for the half year ending 31st December 1896, reported that the decrease was due to the falling off of revenue chiefly under the head "Sale proceeds of coffee jungles and other lands." The Deputy Commissioner, Kolar district, who has not explained the circumstances which led to such a heavy fall in the demand, is again requested to do so. In the Hassan district, the falling off of Rs. 22,940 under "Total demand" is chiefly due to the arrears at the beginning of the year having been less than the outstanding balance at the commencement of the previous year.

3. The percentage of balance to the total demand was as noted below :—

Tumkur	4·9	5·0

4. The balances outstanding in the Shimoga, Kadur and Hassan districts are very heavy and call for early action.

5. *Sayer and Salt.*—The figures under these heads call for no special remark except that the balances of Rs. 1,970 and Rs. 1,102 remaining uncollected under the head "Sayer" in the Kadur and Shimoga districts, respectively, should be collected early.

6. *Mohatarfa.*—The arrears at the end of the period under review were heavy in the Mysore and Kolar districts, being Rs. 9,460 and Rs. 5,054, respectively. It is hoped that suitable measures are being adopted for their prompt recovery.

7. *Miscellaneous.*—There is an appreciable decrease in the demand shown against the Kadur, Kolar, Hassan and Tumkur districts, being Rs. 8,947, Rs. 8,022, Rs. 5,931 and Rs. 2,113, respectively. This falling off should be accounted for. The heavy balances of Rs. 14,133 and Rs. 9,442, remaining yet uncollected in the Shimoga and Mysore districts, respectively, should be collected at an early date.

Docket No. 1010, dated 27th May 1897, from the Superintendent, Government Press, soliciting orders as to whether the amended forms of fortnightly prices current (wholesale and retail) prescribed in Government Proceedings No. 8809-16—R. 2958, dated 5th April 1897, may be printed and supplied as applied for by the Treasury Officer, Bangalore district.

2. Letter No. 1005, dated 31st May 1897, from the Deputy Commissioner, Tumkur district, requesting to be supplied with printed forms of the fortnightly prices current of food grains, &c., prescribed in the Government Proceedings cited above.

No. 11592-600—R.F. 122-96, DATED, BANGALORE, 30TH JUNE 1897.

ORDER THEREON.—In continuation of Government Proceedings No. 8809-16—R. 2958, dated 5th April 1897, laying down instructions in regard to the preparation of the future fortnightly returns of prices current (wholesale and retail), the Deputy Commissioners are requested to submit their future returns in the forms attached hereto. As the entry of prices of both "Arhar" and "Arhar dál" is considered desirable, an additional column has been provided therefor in the sample forms attached.

2. The Superintendent, Government Press, is requested to have a sufficient number of copies of the returns in question printed and supplied to the Deputy Commissioners *at a very early date*. One hundred copies of each of the said forms should also be supplied to the Revenue Department of this office.

READ :—

Government Proceedings No. 613-22—Ex., dated 2nd April 1897, directing certain preliminary arrangements being made for 1897-98, *in re* the contemplated introduction into Mysore of the Tree-tax system of Toddy Administration.

2. Correspondence ending with letter No. 3887—466, dated 23rd May 1897, from the Excise Commissioner in Mysore, explaining the necessity for a modification of clause (3) of para 1 of the above Proceedings.

No. 11167-76—Ex. 407, DATED, BANGALORE, 19TH JUNE 1897.

ORDER THEREON.—Under the circumstances explained by the Excise Commissioner, Government are pleased to direct that clause (3) of para 1 of the above Proceedings be altered as follows :—

(3) "If any farmer or other person declines to accept the farm for 1897-98 "on these terms, the farm will be sold by auction and the amount of the accepted "bid will be the rent for 1897-98, and will be made up as described in clause "(2) above."

FOREST.

Proceedings of the Government of Mysore.

No. 10703-713—Ft. F. 128-95, dated, Bangalore, 8th June 1897.

Order.—The suspension for a series of years of elephant khedda operations has now been under the consideration of the Government for some time.

2. The Mysore khedda system, as originally started and worked by the late Mr. Sanderson in 1883 and subsequent years, answered very well for several years. Under this system the wild herds are impounded in big enclosures (or kheddas) previously prepared along the routes usually taken by elephant herds in travelling from one part of the forests to another in search of food and water, and from these enclosures they are driven into the smaller stockades, in which they are each separately roped with the aid of trained elephants and afterwards led out into the open. The elephants have become too knowing for the continued success of this system, for they now avoid our fixed kheddas to such an extent that it has become necessary to resort to a system of drives over long distances with the help of villagers, which, while entailing much expense and making an undue demand upon local labor, only succeed in securing small fractions of the herds. Under such circumstances, the Government resolved in September last, to give a trial to another system of capture called the "Bengal system," under which a wild herd is surrounded in the forests by skilled hunters, who afterwards rapidly construct a temporary stockade so as to keep the animals impounded within it. This system has been tried this year with considerable success with the aid of 300 men imported from Chitagong, and so many as 161 elephants have been captured, out of which 10 had to be released and 13 either died or had to be shot in stockade, and 18 died subsequently.

3. One chief object in trying the Bengal system this year was to give to local hunters such training as would enable us to dispense with the importation of foreign hunters in future, and to make small annual captures with the aid of local men and a small establishment of mahouts. This object has not been realized, for it has not apparently been found possible to train any local men for the work. The Bengal system, if carried on with the help of imported hunters, is too costly for a *small* annual operation, and a large capture such as that of this year, if allowed to be carried on annually, is calculated to exterminate the species in the course of a very small number of years.

4. Under such circumstances, the Government resolve to suspend the capture of elephant herds until further orders. It is evident from all accounts that the species requires the rest of a few years to enable it to regain its former strength, and it is probable that after the lapse of a sufficient interval of time it may be feasible to revert to the system of fixed kheddas which answered so well during the first several years.

5. The financial results of the khedda operations from their commencement in November 1888 up to 30th June 1897, when they are to be closed, will probably be found, on the closing of the accounts, to involve a deficit, even after taking credit for the stock of kumki and other elephants retained, and making allowance for the increased expenditure due to the visits of distinguished State Guests.

6. But when the Government instituted khedda operations, its object was not to make a direct financial gain but to afford relief to raiyats from the depredations of wild elephants, which had increased largely and were causing serious damage to crops in parts of the Mysore, Shimoga and Kadur districts. The operations of nine years have so reduced their number that they now keep well within the forests and cause little or no annoyance to the raiyats in any part of the State.

7. The accounts of the Khedda Department must all be finally closed b the 30th June 1897. These accounts are reported to be greatly in arrears an much laxity appears to prevail in connection with an unduly large and ramifie system of advances. These defects in the account keeping of the Khedda Depart mer had previously attracted the attention of the Government and *orders for thei remedy were issue from time to t i m e These orders appar ently have not bee fully carried out a yet, a circumstanc which, after makin every allowance fo the difficulties of a department, the head of which is entrusted with the catching of elephants o the one hand and the disbursement of payments on the other, the Government ar compelled to regard as unsatisfactory. Now that the active operations of th year have been completed and no field operations are proposed for the next year the Superintendent cannot have any reasonable excuse for failing finally to clos the whole of the accounts including a proper adjustment of advances of all kind before the 30th June 1897. The Superintendent is accordingly directed t devote his first attention to this part of his duties. The Superintendent's repor on the final closing of the accounts as above directed, and the general results o the working of the department from November 1888 to June 1897, with the observ ations of the Conservator thereon, should be submitted in due course for th information and orders of the Government.

8. A careful stock of all khedda materials should also be taken befor the 30th June, such portion of it as may be of future use should be retaine and the remainder disposed of in the best manner possible. The Superintenden will submit his recommendations upon this question in due course through th Conservator of Forests.

9. The kumki elephants, and such elephants of this year's capture as ca be trained for forest work, should all be retained by the Forest Departmen and used for working timber as is usual in Burma and Malabar. The Burmes kumkies are already well trained for this work and the others should all be similar ly trained as quickly as possible. Hauling timber from parts inaccessible to carts by means of kumkies, was once successfully tried by Mr Shamaiengar. The em ployment of elephants for forest work is, in the opinion of the Government, a important object for the ready accomplishment of which, an excellent opportunity is afforded by the suspension now ordered of khedda operations from 1st July 1897. The Conservator will be requested to submit, for the orders of Govern ment, after consultation with Mr. Shamaiengar and the District Forest Officer, his proposals on this subject, together with proposals for the establishment of mahouts and others required. In making these proposals, the requirements of a future resumption of khedda operations should be borne in mind.

10. It is evident that the number of elephants captured this year is far in excess of what there is a market for. No elephants should, however, be sold at a sacrifice, and such as cannot be sold for a reasonable price should be retained and trained for forest work.

11. The Government take this opportunity of recording its appreciation of the highly successful manner in which Mr. Shamaiengar has carried on khedda operations since he assumed charge of the department in September 1892. Suddenly called upon to take the place of so great and well known a "master of the art" as the late Mr. Sanderson, his powers of organization and application enabled him to carry on the field operations of the department

in a manner so satisfactory and creditable as to evoke praise from all quarters. Upon the abolition of the department on 1st July next, he will, until further orders, be employed, under the orders of the Conservator, on the work of training and using the elephants for forest work in the manner described in para 9 above.

12. Regarding the disposal of the portion of the khedda establishment, not required to be retained, orders will be passed upon receipt of reports called in paras 7, 8 and 9 above, and in anticipation of such orders, the Conservator is authorized to give, as soon as possible, notice of the abolition of the department from 1st July next to those members of the present establishment, whose services are not, in his opinion, likley to be required after the date above specified.

READ THE FOLLOWING PAPERS :—

Letter No. 157—135. dated the 8th August 1896, from the Deputy Commissioner, Shimoga district.

I have the honour to submit the following for the information and orders of Government.

2. It appears that in the Dharwar district, sandal trees standing on private holdings could be disposed of by private individuals after obtaining the permission of the Forest Department and on payment of a royalty of one rupee per tree. The Forest Officer of that district had issued a pass to one Baswannappa of Byadige, for removing sandal trees from fields in the Thirmalapur village in the Kod taluk of that district. But the said Baswannappa felled and removed a sandal tree standing in Survey No. 115 of the Gulladahalli village of the Shikarpur taluk of this district. This Survey No. 115 adjoins Survey No. 14 of the Thirmalapur village and the removal was taken up in the first instance as one of theft as in the said pass, Survey No. 14 of Thirmalapur was not mentioned and none of the other fields mentioned therein were situated on the borders of Gulladahalli. It was then ascertained that Survey No. 1 had been wrongly entered for Survey No. 14 and the question was then taken up as one relating to a dispute of boundaries.

3. The spot was inspected jointly by the Amildar of Shikarpur and Mamlatdar of Kod taluk, Dharwar district, and it was jointly decided by them that the sandal tree in question was beyond the shist of Survey No. 14 of Thirmalapur, and had been standing on Survey No. 115 of the Gulladahalli village of the Shikarpur taluk of this district.

4. The Forest Officer of this district, values the sandal tree at Rs. 5-6-0 and this amount has to be realized from Baswannappa to whom a notice will be issued to pay it. If he should fail to comply, I shall report it for the orders of Government.

5. In the meantime, I beg to submit that sandalwood is a Government monopoly in this Province while it is not so in the Dharwar district, where permission is apparently given not only to raiyats but also to persons alleging themselves to have purchased the trees from them to cut and remove them. Under the cloak of such passes sandal trees belonging to this Province are frequently cut by unscrupulous persons and smuggled over the border. I think that an effective check may be applied to this smuggling if, whenever passes are issued for removal of sandal trees from villages on our border, simultaneous intimation can be given by the Dharwar authorities to the Amildars of our frontier taluks. I beg, therefore, to suggest that if the Government should agree with me in this view, steps may be taken to evade despatch of duplicates of such passes to our Amildars by the Forest Officer in the Dharwar district. Our Amildars will be directed to give prompt information of such passes to our Forest Rangers and patels of the neighbouring villages with instructions to see that the holders of the passes do not fell and remove sandal trees in our territory fraudulently with the help of such passes.

2. Letter No. 880—85, dated the 26th August 1896, from the Conservator of Forests in Mysore.

Referring to your endorsement No. 1938—Ft. 119 of 17th instant on the Shimoga Deputy Commissioner's No. 157—135 of 8th idem, which should, I submit, have reached Government through this office, I have the honor to remark that the Deputy Commissioner's statements with regard to sandalwood not being a state monopoly in Dharwar do not coincide with information which I recently obtained in connection with compensation or a share to raiyats, as will be seen from the accompanying copies of letters to the District Forest Officer, Shimoga, from the District Forest Officers of Dharwar and North Canara from which it appears that, somewhat to my surprise it is so treated.

It may, however, be the case as stated by the Deputy Commissioner that sandal trees on private holdings in Dharwar are allowed to be removed on permission previously obtained from the Forest Department and payment of a stamp fee of Re. 1 per tree.

2. The point is not material to the object we have in view, *viz.*, protection of our sandalwood, but the exact procedure prescribed should certainly be ascertained and reciprocal protective measures ensured by intimation of permits issued as proposed by the Deputy Commissioner or any other measures which may suggest themselves.

3. Sandalwood in Madras is not a State monopoly but the Madras Government have recently found it necessary to prescribe a special set of rules for its removal from private lands and control in transit with a copy of which I have been favored semi-officially by the Conservator of Forests, Central Circle.

They contain some useful provisions and I have utilised them in framing a set of general transit rules for this province which I have just completed and am sending to all Deputy Commissioners for favor of remarks before submitting them to Government for approval. I would suggest that when they are sanctioned and notified copies be sent to the Governments of Madras and Bombay for communication to Collectors and District Forest Officers of frontier districts with orders to give them effect, and at the same time the Madras Government be moved to extend the Salem sandal rules or similar ones to the Coimbatore, Nilgiri and South Canara districts in which sandal grows, and the Bombay Government to favor us with copies of their rules and procedure.

4. Meanwhile the Revenue and Forest Officers in Shimoga and Dharwar can doubtless arrange temporarily for mutual intimation of permission accorded to fell or remove sandal trees on or over the frontier and under Rule 10 of the Subsidiary Rules notified on 15th March 1895, No. 15230—R. F. 155-92, no sandalwood can "within the Mysore territories be moved from place to place without a license to "be granted by the Forest Officer in charge of the Range."

5. In the particular case under reference the holder of the Dharwar permit appears to have felled, either inadvertently or otherwise, a tree standing on Survey No. 115 of the Gulladahalli village of the Shikarpur taluk of the Shimoga district. It is evident that no mere rules could prevent this which can only be done by vigilance on the part of the village officers or the occupant of the field, if any.

As it is, the matter would appear to have been promptly brought to notice which is so far satisfactory and will probably lead to Dharwar permit-holders being more careful in future.

3. Letter No. 3370—Ft. 196, dated 26th September 1896, from the Secretary to the Government of Mysore, General and Revenue Departments, to the 1st Assistant to the Resident in Mysore.

I am directed to state that the Deputy Commissioner of Shimoga district has recently brought to the notice of the Durbar that permits appear to be granted in the Dharwar district of the Bombay Presidency for felling and removing sandalwood in private lands and that there is reason to suspect that under cover of such permits sandal trees belonging to this State are sometimes stealthily cut and smuggled over the border by the permit-holders. An instance of this has lately occurred in which one Baswanmappa of Byadige, who had obtained a license from the Forest Officer of that district to remove sandalwood from Survey No. 14 of the Tirmalapur village, Kod taluk, actually felled and removed a sandal tree standing in Survey No. 115 of the Gulladahalli village in the Shikarpur taluk of the Shimoga district. Sandalwood is in Mysore, as in Bombay, a State monopoly, and its smuggling can only be effectually checked by reciprocal protective measures on behalf of the Governments of Bombay and Mysore, combined with the active co-operation and vigilance of their Revenue and Forest Officers.

As a first step in this direction, the Conservator of Forests, Colonel Campbell Walker suggests that mutual intimation of permission accorded to fell or remove sandal trees on or over the frontier be given, a suggestion which commends itself to the Durbar, and I am accordingly directed to request the favor of the Government of Bombay being addressed on the subject and, should the suggestion be acceptable, moved to issue instructions to its officers whenever permits for the removal of sandalwood are granted, to intimate the fact by the simultaneous transmission of duplicates to the Amildars of the frontier taluks of this province; so that the latter may be enabled to give prompt information to the Forest Rangers and Patels of the neighbouring villages. I am to add, that on receipt of a reply from the Bombay Government, instructions will be issued to the officials of the Durbar to furnish duplicate copies of any permits which may be issued by them, to the Mamlatdars of the Bombay Presidency bordering the Mysore State.

4. Letter No. 2152, dated the 19th May 1897, from the 1st Assistant to the Resident in Mysore.

With reference to your letter No. 3370—Ft. 196, dated the 26th September 1896, regarding the smuggling of sandalwood on the frontiers of the Bombay Presidency and the Mysore State, I am directed to state that the system therein suggested meets with the approval of His Excellency the Governor of Bombay in Council, and that the necessary instructions have been issued by the Bombay Government to the local officers concerned.

No. 10718-726—Ft. F. 22-96, dated, Bangalore, 8th June 1897.

Order thereon.—Ordered that the foregoing correspondence be communicated to the Conservator of Forests in Mysore and Deputy Commissioners of districts for information and guidance.

2. The Conservator is informed that the General Transit Rules promised by him in para 3 of his letter read above are awaited.

To—The Conservator of Forests in Mysore.
The Deputy Commissioners of Districts.

The demand, collection and balance statements (Serial No. 8, Forest) of the several districts of the province for the seven months ending 31st January 1897.

No. 11292-300—Ft. F. 116-95, DATED, BANGALORE, 25TH JUNE 1897.

ORDER THEREON.—The following statement compiled from the returns received from the Deputy Commissioners of districts exhibits the demand, collection and balance under "Forest" for the seven months under review as compared with those for the corresponding period of last year.

Statement showing the Demand, Collection and Balance under the head "Forest" in the Mysore Province up to end of January 1897.

Demand, collection and balance.	Bangalore.	Kolar.	Tumkur.	Mysore.	Hassan.
	Rs.	Rs.	Rs.	Rs.	Rs.
Demand including arrears—					
Last year 1895-96	79,618	28,651	20,800	3,92,197	1,18,397
Current year 1896-97	57,269	18,315	16,601	2,50,780	43,604
Collection including remission—					
Last year 1895-96	66,195	27,611	20,616	2,56,665	85,282
Current year 1896-97	39,175	17,855	16,263	85,768	12,302
Balance—					
Last year 1895-96	13,423	1,040	184	1,55,532	33,115
Current year 1896-97	18,094	460	338	1,65,012	31,302

Demand, collection and balance.	Shimoga.	Kadur.	Chitaldrug.	Huzur Treasury.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.
Demand including arrears—					
Last year 1895-96	3,04,946	73,875	12,898	4,375	11,25,757
Current year 1896-97	1,44,250	73,712	11,900	6,356	6,22,787
Collection including remission—					
Last year 1895-96	3,05,330	31,623	12,747	4,375	7,93,444
Current year 1896-97	67,051	30,928	11,008	6,356	2,86,706
Balance—					
Last year 1895-96	89,616	39,252	151	...	3,32,313
Current year 1896-97	77,199	42,784	892	...	3,36,081

2. There has been a general decrease under "Current Demand" in all the districts as shown below :—

Districts.	1895-96.	1896-97.	Decrease.
	Rs.	Rs.	Rs.
Shimoga	3,84,245	1,39,459	2,44,786
Mysore	3,23,412	2,05,723	1,17,689
Hassan	1,17,153	43,396	73,757
Bangalore	75,584	55,775	19,809
Kolar	27,594	17,610	9,984
Tumkur	20,496	16,480	4,016
Kadur	64,388	61,986	2,402
Chitaldrug	12,898	11,894	1,004
Total ...	10,25,770	5,52,323	4,73,447

Similar decrease was noticed in all the districts, except Kadur, in Government Proceedings No. 8652-61—Ft. F. 116-95, dated 31st March 1897, and the Deputy Commissioners were requested to report on the subject. Their replies, when received, will have to be dealt with separately. This is inconvenient, and in the absence of sufficient details, the object with which these returns are reviewed by Government, from time to time, is not gained. It is, therefore, requested that the Deputy Commissioners will, in future, submit with the prescribed return a memo explaining all variations in demand and collection and noting the steps taken to collect or adjust the main items of the outstanding balance.

3. What proportion of the entire demand remained uncollected on 31st January 1897 is shown below :—

District.	1895-96.	1896-97.
Hassan ...	27·9	71·8
Mysore ...	39·7	65·1
Kadur ...	53·1	58·0
Shimoga ...	22·7	53·3
Bangalore ...	16·9	31·5
Chitaldrug ...	1·2	7·5
Kolar ...	3·6	2·5
Tumkur ...	·9	2·0

The attention of the Deputy Commissioners of Mysore, Shimoga, Kadur, Hassan and Bangalore is drawn to the heavy balances remaining uncollected in their respective districts.

4. The arrears on account of previous year's demand, as they stood on 1st July 1896 and 31st January 1897, in the several districts are shown below :—

District.	On 1st July 1896.	On 31st January 1897.
	Rs.	Rs.
Mysore ...	45,057	40,946
Kadur ...	11,826	3,006
Shimoga ...	4,791	959
Kolar ...	705	460
Hassan ...	208	163
Bangalore ...	1,494	81
Tumkur ...	121	4
Chitaldrug ...	6	...
Total ..	64,208	45,619

The outstanding balance shown against the Mysore district is very large and the Deputy Commissioner is requested to take early steps for its collection or adjustment.

To—The Deputy Commissioners of Districts.
The Conservator of Forests in Mysore.

The following letter No. 4864—344, dated the 29th May 1897, from the Conservator of Forests in Mysore.

I have the honor to submit, for approval and publication in three consecutive issues of the *Mysore Gazette*, a draft Notification specifying the boundaries of the marginally noted six forests of the Bangalore district, which were once notified as such in Part II of the *Mysore Gazette* on the dates specified against each by the late Inspector General of Forests. The District Forest Officer, Bangalore, in his No. 696, dated the 11th instant, reports that there have been no subsequent additions to or exclusions from, the aforesaid forests. I am to request that the Superintendent of the Government Press may be kindly instructed to furnish me with the usual number of copies of the said Notification for distribution.

2. Printed copies of boundary notifications of the above forests are herewith submitted for reference.

No. 11088—Ft. F. 155-95, DATED, BANGALORE, 18TH JUNE 1897.

ORDER THEREON.—Government are pleased to direct that a Notification as hereunder be published in the *Mysore Gazette*.

2. Under Section 9 of the Forest Rules of 1878, proclamation of the demarcation and boundaries of every forest should be made in the taluk where the forest is situated. The Conservator of Forests is requested to arrange for this being done.

The following letter No. 4364—316, dated the 30th April 1897, from the Conservator of Forest in Mysore.

In accordance with para 2 of Government Proceedings No. 63-71—Ft. F. 3-96, dated 3rd Jul 1896, *re* the issue of new standard weights and scales to be issued to kothis where necessary, have the honor to state that I issued a Circular requesting the Deputy Commissioners to giv effect to the said Government Order by introducing or substituting *actual* English standard weight (Avoirdupois) in the kothis of the province both for weighing sandalwood and minor forest pro duce. Subsequently, in deference to the representations made to me, the above was ordered to b held in abeyance till 1897 by another Circular and a Notification, dated 15th September 1896, pub lished, informing the public that English standard weights would be adopted in all the kothis fro 1897, and that sandalwood purchased before the 31st December 1895 would be weighed and issue according to the current pound weight.

2. In reply to the above Notification I received communications from the marginally note gentlemen who buy our sandalwood at the auction sales o a large scale protesting against the adoption of the standar weights. *Copy of their communications and my reply there are enclosed for perusal together with *copy of my lett to the Deputy Conservator of Coorg and his reply. I also took the opportunity of the auctio sales at Sagar last December to confer with the native merchants and agents present (about 1 on the subject and found that they had really no valid grounds of objection beyond old custom a compensation for drisge which is quite another matter. In the interests of both buyers and sel ers there must manifestly be a standard. There is really no Indian standard, the weight maunds, kandis, &c., varying in every province and district, and we surely cannot do better tha adopt the English standard weights which are well known and established throughout the comme cial world.

Messrs. Volkart Brothers, Tellicherry.
Mr. W. F. Petrie Hay.
Messrs. V. Gangadhara Chetti & Co.
*Not printed.

3. From the above it will be observed that the protests advanced by the sandalwood me chants and agents are, in my opinion, not based on any proper grounds. The Deputy Conserv ator of Coorg and the Conservator of Forests, Central Circle, Madras, inform me that they will, future, adhere to standard English weights, and I am in communication with firms in this count and the Mysore Public Works Department Agent in England to supply this department wi standard weights and test scales; but think it advisable to bring the protests to the notice Govern ment in case they may wish to re-consider and modify their orders, for which I see no goo reason.

No. 11272-80—Ft. F. 3-96, DATED, BANGALORE, 24TH JUNE 1897.

ORDER THEREON.—The Government are of opinion that the present syste of weighing sandalwood and minor forest produce in the kothis leads to irreg larities and abuse and agree with the Conservator that in the interest of bo buyers and sellers it is advisable to adopt the English standard weights (Avoirdupoi in all the kothis of the province. This should accordingly be done with effe from the ensuing official year.

Comptroller's endorsement No. 2192, dated 22nd April 1897, submitting letter No. 3866—289, dated the 10th April 1897, from the Conservator of Forests in Mysore, forwarding the budget estimates of the Daria Dowlat Garden at Seringapatam for 1897-98.

No. 10571-2—Ft. F. 148-95, DATED, BANGALORE, 1ST JUNE 1897.

ORDER THEREON.—The budget estimates which stand as in the current year, namely, Receipts Rs. 600 and Expenditure Rs. 2,014, are sanctioned and transmitted to the Comptroller for inclusion in the Provincial budget.

2. Government observe that considering the large expenditure incurred for the up-keep of the garden, an improvement in the annual receipts may fairly be expected under the careful supervision of Mr. Cameron.

The following letter No. 4593-331, dated the 13th May 1897, from the Conservator of Forests in Mysore.

Referring to Proceedings No. 6340-41—Ft. F. 27-95, dated 16th January 1897, I have the honor to submit a report No. 253 of 5th instant from Mr. Cameron on his recent visit to the Manjarabad Ghat Forests for perusal and favor of return with such comments as Government may think fit.

2. I have requested Mr. Cameron to continue his observations and identification of the Ghat Forest trees in communication with Mr. G. E. Ricketts who has collected a number of flowering specimens and will be able to assist Mr. Cameron with descriptive notes, if employed in the Bangalore district, during the monsoon as suggested in my No. 3792—279, dated 5th April 1897, early orders on which are solicited.

ENCLOSURE.

Having, on your kind recommendation, been permitted to visit some of the forests in Manjarabad, with the view of collecting specimens of natural history and forming an idea of the malnad flora, generally, I have the honor to submit the following details of my first visit with such rough notes as could be made in the short time at my disposal.

2. Starting from Bangalore on the 9th February, accompanied by a shikari and seed-collector, I proceeded by rail to Arsikere (about 100 miles) and thence by country cart direct to the town of Hassan, a further distance of 28 miles. Hassan, the capital of the district of the same name, is well known to Mysore officials and European planters for the salubrity of its climate. Although distinctly a maidan town, it is situated near the Western Ghats at an elevation of about 3,000 feet, where moisture from the adjacent hills combined with an occasional sea breeze serves to make the place cool and healthy. I do not know the actual rainfall, but was told that it seldom exceeds 30 inches per annum. The whole district lies between 12° 30′ and 13° 22′ North Latitude, and between 75° 32′ and 76° 58′ East Longitude.

3. When the town of Hassan is joined on to the railway system of the country, it will, in all probability, become a sanitarium for planters and others. With a fine climate, good soil, and plenty of water in the neighbourhood, it should also become one of the market-gardens of India, where large quantities of fruit and vegetables could be profitably raised not only for local consumption but also for export to Poona, Bombay, Mangalore and Madras.

4. On a former occasion when I visited the place at the request of my late friend, Mr. A. Krishnaswamaiengar, to offer some advice about laying out a People's Park, I was much impressed by the local growth of roses. Although less care is bestowed upon it, the rose attains greater perfection here than at Bangalore, the blooms being larger, better coloured and more sweetly scented. A similar advantage may be seen in the growth of the Tinian Pine, *Casuarina equisetifolia*. A few trees of the latter, growing in the compound of the travellers' bungalow, have attained fine proportions and are larger than any specimen at Bangalore.

5. These are said to have been planted by Colonel Porter, when he was Deputy Commissioner of the District about 1848-50. Being such good specimens of an exotic which was first introduced about the latter date, I hope they will be long spared to commemorate Colonel Porter's enterprise. That the soil is generally good is proved by the fine growth of many indigenous and a few exotic trees in the town, most of them having been planted by Colonel W. Hill, a former Deputy Commissioner who did much for the ornamental and sanitary improvement of Hassan. Several species of *Eucalyptus*, planted a few years ago by Mr. P. N. Parmaiya, have grown fairly well, especially the species *E. citriodora* and *E. rostrata*. *E. globulus* only succeeds for a few years as at Bangalore.

6. On the afternoon of the 10th I drove into Barguai with Mr. Robert Anderson, whom I had the good fortune to meet at Hassan. This gentleman has so much Indian experience and is so well informed on all local matters that travelling with him was instructive in the highest degree. He also guided me to a spot which I have long been anxious to explore, *i. e.* the scene of his cousin's useful labours (Graham Anderson, Esquire, C. S. I.,) in compiling "Forest Trees in the Coffee Lands of South Mysore."

7. In drawing near to the town of Hassan and passing beyond it, one is struck not only by the undulating contour of the country, but also by the extensive pasturage covering the higher crests and often swelling into low ranges of grassy hills.

8. The general appearance of the district is so suggestive of sheep-farming that I remarked upon it to Mr. Anderson, who at once expressed an opinion that the Government would do well to encourage such an industry here.

9. Mr. Anderson thinks that with a few Australian rams in the possession of careful men, liberal grazing rights, and the run of certain *kauls* after the herds of cattle have passed over them,

the sheep-farming industry would soon develop and pay. He also thinks that the experiment should be started on a sufficient scale some 8 to 10 miles north or east of Hassan, Harnahalli and Channarayapatna being considered good centres. If the natural pasturage is suitable and abundant in these localities as it appears to be in some parts of the district, Mr. Anderson's suggestion is worthy of serious consideration.

10. On a Coffee clearing, the indigenous trees are viewed to better advantage than in the dense jungle, where the growth is usually compressed and carried to a great height. Many of the isolated giants left at intervals to shade the coffee are truly magnificent trees. The prevailing species of this class found on the estates of Barguai, Oossur and Ubban, or in their adjoining tracts, are as follows :—

	Kanarese.
Ficus Bengalensis, Linn.	Ala.
„ Tjakela, Burm.	Kabbasuri.
„ mysorensis, Heyne.	Goni.
„ sp.	Kad goni.
„ sp.	Hub goni.

Hardwickia pinnata, Roxb.	Yenne mara.
Cinnamomum iners, Reinw.	Yelluga.

11. But on some estates the indigenous trees have been almost entirely replaced by what is called "secondary planting" of usually exotic and indigenous shade-trees mixed together. Of the latter class, I was surprised to find that the Australian tree, *Grevillea robusta*, has been so extensively planted to afford shade. Pampered by space and attention, the species has grown remarkably well, but should it be exposed to the rapid encroachment of indigenous growth, which is only repressed by the vigilance of the planter, the *Grevillea robusta* would, in all probability, soon be crowded out.

12. The trees most favoured for secondary planting are :—

	Kanarese.
Ficus glomerata, Roxb.	Atti.
Cedrela Toona, Roxb.	Gandagarige.
Acrocarpus fraxinifolius, Wight.	Howligay.
Artocarpus integrifolia, Linn.	Hulsen.
Grevillea robusta, Cunn.	...
Cassia siamea, Lamb.	Sime tangadi.

13. The last named had been introduced many years ago, as the few trees I saw were of large size compared to what is seen on the plains. *Albizzias* and *Erythrinas* were not plentiful, and are evidently not so much in favor here as in certain other planting districts further south.

14. Halting at Barguai on the 11th, I was enabled, under the guidance of Mr. Anderson and his Assistant, Mr. Ralph Taylor, to collect a number of specimens and acquire lots of information concerning arboriculture on the estates. Unfortunately the season was too early to secure many flowering specimens, so that the identification of unknown trees on the spot was impracticable. But as will be seen further on, arrangements have been suggested to secure botanical specimens of undetermined trees. It is only by making a full and carefully selected herbarium that the Forest Department can hope to acquire the correct names of all the trees in the province. I would suggest also that duplicate sets of specimens be prepared for presentation to the herbariums at Kew and Calcutta, where names would be properly authenticated.

15. When the Barguai estate had been well explored, I was taken to the adjoining one of Oossoor, the property of Mr. Brooke Mockett. Here Mr. L. Crawford, the Superintendent, kindly showed me the hybrid coffee of which so much is now heard.

16. These hybrids, with their parents, are flourishing, in quantity, on a piece of land situated near the cooly lines. On this plot, many years ago, two coffee seedlings had been planted pretty close to each other, one being Liberian, *Coffea Liberica*, and the other the Coorg species, *Coffea arabica*. Both these plants, which are said to be the parents of the hybrid progeny, are still alive and both maintain their specific characters. The first two hybrids, which are now very fine bushes, came up spontaneously in the vicinity of the parent bushes about 10 or 12 years ago. Since then numerous hybrid seedlings have been detected, of which the first batch is 7 years old. Mr. Crawford tells me that on Mr. Mockett's different estates, they now cover 6 acres of land, and are not less than 5,000 in number. The variation in the different seedlings now in fruit is truly remarkable, and leaves no doubt in my mind as to the interspecific nature of their origin. I am inclined to think that in the first instance pollen from *Coffea arabica* (either the privileged bush near to the Liberian plant or others around) found its way to the *Liberian* species, where it fertilised the latter and subsequently produced a hybrid. Hence *C. arabica* became the male parent, while *C. Liberica* fulfilled the function of seed-bearer. But being hermaphodite on both sides, there is really nothing to prevent reciprocal action, so that either species may fulfil the dual function of both parents. Being a new plant, it is probable that the seeds and seedlings of *C. Liberica* were better preserved than those of the adjoining *C. arabica*, hence my opinion that the first hybrids were produced from the former and not from the latter. But subsequently counter and inter-crossing have probably taken place to produce the gradation of strains now growing on the estate. This is the only way in which I can account for Mr. Brooke Mockett's fine strain of hybrids and cross-breds. In a few bushes, the primaries are somewhat crowded with berries nearly all ripening together, just as in *C. arabica*. At the same time the leaves are larger, greener, and much firmer, in texture than the leaves of the latter. This, I discovered, is the most favoured strain, as it promises crop and shows no sign of being attacked by leaf-disease. In fact, all the hybrids appear to be proof against the latter pest.

17. Saplings of *Cedrela Toona*, 20-30 feet high and breaking into young leaf, were looking damaged from some cause, presumably the attack of a defoliating insect. It would be well worth while to forward specimens of such insects, with the parts affected, to the Indian Museum at Calcutta, for identification. The entomological department of that institution is now doing excellent work in tracing out the life history of insect pests, and would therefore appreciate help from planters.

18. Remedies for destroying insects of this class are common enough, but the cost of treating large areas is usually prohibitive. Another serious obstacle arises from the risk of using poisonous substances in connection with dietary products such as coffee. Insecticides are now extensively used in American horticulture, and details of the various mixtures can be furnished from my office should any planter wish to try them. A number of remedies of the same class are published in the *Mysore Gazette* of 25th June 1896.

19. When insects are migratory or short-lived, the first heavy showers usually clear them away, and the damage done may not be serious.

20. In the ghat jungle I subsequently saw plenty of leaf-disease and borer, where both pests flourish on various trees and shrubs. So having these dreaded pests close at hand, it can hardly be expected that the planter will ever be quite without them. His best safe guard is a vigorously constituted coffee bush—a possession or condition which appears to be fully recognised and worked up to on the fine estates I had the privilege of visiting.

21. Early on the 12th I started for Kempkal, where Mr. George Ricketts, Assistant Conservator of Forests, had requested me to join him. This journey, which covered a distance of 23 miles, proved one of the most interesting I have ever experienced. The scenery was delightful throughout, while in some parts of the ghat the forest was simply grand. Travelling almost due west from Saklespur, we leisurely ascended the ghat to Marnhalli at an elevation of nearly 4,000 feet. Then, from this open position (a favourite rendezvous for sportsmen in search of bison) where there is a travellers' bungalow and toll-gate, we made a tortuous descent of eleven miles through magnificent evergreen forest, arriving at destination (a small encampment on the Kempkal river) as it was getting dusk. Of course the journey could have been done in less time had travelling been the sole object in view.

22. The hills and valleys on the eastern slope of the ghats receive here, as elsewhere, with a few exceptions, a much lighter rainfall than the more rugged mountains forming the western face of the range, consequently there is a great difference in the vegetation of the two slopes. Broadly speaking, the eastern slope represents deciduous and mixed forest with open glades of grass and occasional patches of cultivation, while the western face consists of purely evergreen forest with scarcely a break except near the summits of the higher peaks, which are mostly covered by long grass. Viewing the locality (the eastern side) from the Manjarabad Fort, one sees a splendid panorama of irregular, wooded country, interspersed by low grass-hills and fringed on the west and south by the higher peaks of the ghat range. Of the latter, "Subramanya" is the most conspicuous object, rising to an elevation of 5,583 feet.

23. The planters' bungalows occasionally peep out from amongst the trees but with this exception and at a distance of a few miles, a stranger would not realise that a great planting industry lies so closely around him. The shade required by the coffee makes the whole planting district look like a great forest.

24. But to mark the difference in vegetation more in detail, it seemed that the cultivation of coffee, paddy, and fruit trees was wholly confined, at this point, to the eastern side of the ghat range. Here also there are numerous species of *Ficus* some of which attain a very large size. By the sides of the hill streams—raging torrents in the monsoon season—there are splendid clumps of the prickly bamboo, *Bambusa arundinacea*. The specimens here referred to are the largest I have ever seen. From casual observation at the roadside and a little way into the jungle, ferns are largely represented by *Angiopteris evecta*, *Cheilanthes farinosa*, *C. tenuifolia*, *C. mysorense*, *Polypodium quercifolium*, *P. phymatodes*, *P. triloides*, *Gleichenia dichotoma*, *Hemionitis conlata*, *Lygodium scandens*, *Nephrodium* in several large species, *Osmunda regalis*, *Adiantum caudatum*, *Asplenium furcatum*, *A. latifolium*, *A. sylvaticum*, and *Pteris geraniifolia*; also *Actinopteris radiata* in a few places. These fine ferns, with many others, can here be literally collected in cartloads. One species resembling the English bracken (*Pteris aquilina*) was very abundant. Nothing was seen of the genus *Capparis*, which is so plentiful in the Bandipur forests in west Mysore. Epiphytal orchids are tolerably common, although not rich in species in the parts visited. None were found on the west face of the range. A pretty species was found in the Manjarabad Fort, growing on stunted specimens of the *Wendlandia Notoniana*. Freshly gathered in the morning, with the dew upon them, the flowers possessed a delicate odour of violets. A plant of this will be sent to Kew for identification. At a sharp bend of the road half way between the Fort and Saklespur there is an isolated clump of the Asoka tree, *Saraca indica*. Being in full blossom, the trees formed a pretty sight, but they were the only ones seen during the tour. On a bank nearly opposite to them, was a fine bush of the common dog rose, also in blossom. Before reaching Marnhalli, I came upon a magnificent specimen of *Melastoma malabathricum*, seen in flower for the first time. If this fine shrub would only flourish in gardens as it does in the Manjarabad jungle, it would be an extremely worthy object. A species of *Sonerila*, also of the *Melastomaceæ*, was curiously plentiful about the same spot.

25. Travelling down the ghat road, one is much impressed by the surrounding vegetation, the solitary grandeur of the situation, and the immense trees, of which there are many species. I had previously seen primeval jungle in the South Wynaad (Kartapara), on the Nilgiris and at Muddamullai, but for density of growth, size of trees, and variety of species, I have not seen anything finer than this ghat. Although early in February, many trees had put forth a flush of young leaves resulting, in some instances, as in the wild cinnamon, *Cinnamomum iners*, Kan. yellaga mara, in a gorgeous display of delicately tinted foliage seen at intervals as far as the eye could reach.

26. The larger form of growth attained by some well known trees such as the common mango, rendered their identification puzzling, and later on, I repeatedly asked Mr. Ricketts and his assistants what trees they were. *Wendlandia Notoniana* was abundant and in full flower on both slopes near the summit of the ghat. The flowers are creamy-white in rather dense panicles at the ends of the shoots. They are sweet-scented and remind one forcibly of the privet inflorescence.

27. There is a wealth of useful timber in these mountain forests, much of which could be thinned out with advantage were there transport to remove it. It is no unusual sight to see an immense tree completely surrounded and locked in by somewhat smaller members of the same species, evidently suckers or seedlings of the central tree. In all such instances, and they are plentiful enough, thinning out would do good. The trees which appeared to attain the largest size are Poon, *Calophyllum tomentosum*, Oil tree, *Hardwickia pinnata*, Silk cotton, *Bombax malabaricum*, White-dammar, *Vateria indica*, *V.* sp, a remarkably handsome tree locally known as "Haggana mara," Wild Nutmeg, *Myristica laurifolia* and *M. magnifica*, Nandi, *Lagerstroemia lanceolata*. Of somewhat smaller sizes but also very large, are Ebony, *Diospyros Ebenum*, Rosewood, *Dalbergia latifolia*, Honne, *Pterocarpus Marsupium*, the Mattis, *Terminalia tomentosa* and *T. arjuna*, Jambe, *Xylia dolabriformis*, Iron woods, *Mesua ferrea*, *Pæciloneuron indicum*, and *Vitex altissima*. Another tree of enormous size in the lower ghat is *Travia nudiflora*. Occupying the same position and often festooned to several trees is the handsome climber, *Bauhinia phœnicea*, Heyne. This interesting plant is a new discovery to me. Fortunately it was in flower and fruit, so that I had no trouble in identifying it. The flowers, young fruit, and end shoots are all so sanguinary in color that the species is not likely to be overlooked. A small quantity of the seed secured

has been forwarded to Kew, where, I hope, the plant will succeed. Being very common about Kemphole and several miles lower down into the South Canara district, it evidently requires plenty of moisture and much heat. I have now seedlings in the Lal-Bagh. At this point, the Kempkal river runs almost due west through an exceedingly rocky bed, precipitous rocky mountains rising abruptly on either side. The site of Mr. Ricketts' camp, which is situated in a small opening by the river just within Mysore territory, is only 300 to 400 feet above sea level, and 45 miles from Mangalore, on the west coast. On the opposite or south side of the river a mountain rises precipitately (I forget its name) to over 2,000 feet, the lower two-thirds being covered with dense undergrowth and magnificent timber. When Mr. Ricketts took me through a part of this jungle I was able to realise the very difficult nature of his work, for there are no short-cuts nor foot-tracts to lend assistance to the forester in this primeval jungle. The forest peons simply hacked the undergrowth until a passage was cleared. The ordinary bamboo is replaced here by dense thickets of large reeds locally known as "Watte." There are one or two species, the most prevalent and troublesome being *Oxytenanthera Thwaitesii*. These reeds afford good thatch for houses, and when tender, food for horses, elephants, and buffaloes. A much more troublesome customer is *Calamus Rotang*, which also impedes the way at every turn. Being so difficult in the dry season when everything is comparatively dry and brittle, one can scarcely realise what the penetration of such a jungle would be after the monsoon, when, in addition to malaria and vegetable impediment, the ground swarms with leeches. Snakes are very plentiful, judging from the numerous trails they leave on the dusty ghat-road. Large game is also abundant, although nothing more alarming than a langour monkey was seen during my short visit. Another high mountain rises precipitately on the north side of the river (161st milestone). This, the Forest Officer had ascended with great difficulty the day prior to my arrival.

28. These, with smaller hills east and west, form a regular basin where there is scarcely a breath of air to be felt on sultry days. It is, indeed, about the warmest spot I have ever visited. When the monsoon breaks even the natives leave the place. There is no local register of the actual rainfall, but it is generally supposed to be upwards of 200 inches. Passing a few miles beyond this point into the South Canara country, the bamboo and other species of the mixed and dry zones commence again.

29. Among the smaller forms of growth the large-leaved *Dillenias* had a curious effect. In young saplings, the leaves are borne in a cluster at the crown, and of such a large size that one is reminded of a young banana tree. A leaf taken from a sapling about 10 feet high measured 3½ feet, and was beautifully ribbed and serrated. But in larger growth, the leaves are comparatively small. In addition to *Caryota urens* and two species of *Calamus*, there is another pretty palm which may be distinct from the latter genus. The specimen seen was in rather an inaccessible position, and I could only get near enough to see that it was of the pinnate type and rather spiny near the base. I suspect it is a third species of *Calamus*.

30. *Cordyline terminale*, the pale green form, is indigenous, also numerous *Scitamineæ*, of which only fragments are visible during the dry season

31. The genera, *Clerodendron*, *Asystasia*, *Barleria*, (The beautiful *B. Gibsonii* was found in flower) *Strobilanthes*, *Thunbergia*, *Alpinia*. *Begonia*, *Impatiens*, *Curcuma*, *Dioscorea*, and *Piper*, are abundantly represented. The minor product, "Popli" *Ventilago maderaspatana*, is not uncommon, while wild cinnamon of a good description is plentiful nearly all through the ghat. Trees of the smallest growth are such as *Macaranga tomentosa*, Kan. Kupa upranthi, *Calicarpa lanata*, Kan. Tagalu gida, *Trema orientalis*. Kan. *Gurkul*. It should be noted that the latter is the proper charcoal tree and not a large species of *Strobilanthes* known to planters under the same name.

32. Garnets of an inferior sort are plentifully found in the bed of the Kempkal river, which derives its name from the prevailing reddish tint of the stone. Beautifully formed pebbles of all sizes can be gathered from the same source, while many of the larger rocks have been worn into curious shapes, some of them having reservoirs of water deposited in fantastic receptacles far above the present water level. These impressions on hard stone point, in my opinion, both to the antiquity of the water course and the great velocity of its waters.

33. Mr. Ricketts, who had been hard at work collecting local information, gave me much assistance, in addition to the vernacular list of trees given at the end of this paper. I have now suggested to that Officer, subject, of course, to your approval, that herbarium specimens may be collected of all trees of which no authenticated name can be found by means of the printed vernacular names or otherwise. I have also furnished Mr. Ricketts with three vernacular lists to work upon, *e. g.*, his own list of new names, one published by Mr. Graham Anderson, C. I. E., and the one drawn up by the late Mr. E. P. Lowery, when Assistant Conservator in the Shimoga District. The latter being re-produced in "The Forest trees of Mysore and Coorg," it is unnecessary to include it here as I have done in the case of other lists. But Mr. Ricketts will, doubtless, collect new vernacular names as he proceeds with his arduous but highly interesting work in the malnad.

34. On the return journey, I had an opportunity of spending a day with Mr. Crawford at Ubban, where I was hospitably treated and had an opportunity of seeing more hybrid coffee in a very flourishing condition. The coffee here is worth travelling many miles to see. Although just within the malnad, the estate lies very near to the maidan, and has an annual rainfall of only 57 inches.

35. I think it only now remains for me to suggest the cultivation of a few more products in the fine taluk of Manjarabad.

36. The market demand for cardamoms (already cultivated), India rubber, Rhea fibre, pepper, nutmeg, vanilla, beetroot, and Central American rubber, *Castilloa elastica*, seems to be on the increase.

37. Planting friends might therefore give their attention to one or two of these products in addition to coffee.

No. 11090-11100—Ft. F. 31-96, DATED, BANGALORE, 18TH JUNE 1897.

ORDER THEREON.—The thanks of Government will be communicated to Mr. Cameron for his interesting report which will be communicated to Deputy Commissioners and the Planters' Associations.

2. The suggestion as to sheep-farming (para 8 *et seq* of the report) will be considered in the Revenue Department.

3. The Government will be glad if the Forest Department can arrange to collect the herbarium specimens of all undetermined trees as suggested in para 14 of the report.

4. The Conservator's attention will be invited to the suggestion made in para 27 as to the thinning of timber in mountain forests.

5. Adverting to para 2 of the letter read above, the Conservator is referred to Government Proceedings No. 10525-6—Ft. F. 44-96, dated 31st May 1897, in which the deputation of Mr. G. E. Ricketts, on special duty, in connection with the reservations on the head waters of the Arkavati River has been sanctioned.
